

Centric Architecture

Open Position: Project Architect

Centric Architecture Founded in 1955, is a Nashville-based architecture and planning firm. Capabilities include full-service architectural, interior design, as well as master and space planning for both public and private facilities and buildings. The firm's design work spans a wide range of project types such as adaptive reuse, historic preservation, mixed-use buildings, infill multi-family, K-12 schools/higher education, public buildings, mixed-use buildings, laboratories, corporate offices, and small residences. The firm has won multiple awards for historic preservation over the last 35 years.

Job Description:

Centric Architecture is seeking highly self-motivated applicants for immediate placement in our Nashville studio as a full-time Project Architect to assist with multiple projects.

We are very proud of our collaborative culture and we believe in an innovative, dynamic approach to design. We currently have projects of various sizes and program, for both public and private clients. It is an excellent time to join us. If you are design oriented, if you thrive in a collaborative team environment, and if you are self-motivated and eager to explore, we would like to welcome you to apply.

Your primary role will be to supervise a small staff of architects and associates while applying a sound and diverse knowledge of architecture principles and practices in a broad array of assignments including consultants' scopes of work and construction administration. Ability to act independently regarding architectural methods and complexities is preferred; supervision and guidance mainly concern overall project and design objectives, critical issues, new concepts and policy matters.

Please send a cover letter, resume and an electronic portfolio. The portfolio should demonstrate design and construction documentation skills. Please limit your document size to 8mb.

Experience and Skills:

Applicants MUST meet the following criteria to apply:

1. Professional degree in architecture from an accredited university architecture program
2. Demonstrated proficiency with BIM (Revit)
3. 5-10 years prior architectural experience
4. Examples of projects that required a high level of creative thinking and team collaboration

The following qualifications are highly preferable:

1. Proficiency with Adobe CS6
2. A demonstrated ability to take initiative and to follow-through on assignments
3. A demonstrated ability to collaborate with others in a design team environment
4. Experience with technical aspects of architecture

Posting closing date: September 30, 2018, unless filled sooner
